

LED CEILING LIGHTS

LED Ceiling Lights

No Lamps!

A ceiling light with no bulbs to replace! Classic on the outside but very modern on the inside, the Ohyama Lights OLCL LED Ceiling Light Series enhances any setting. Equally at home in residential as well as multi-unit and commercial applications this Energy Star rated fixture is one of the most versatile options available. The low profile and clean lines of this fixture make it an ideal choice for kitchens, bathrooms, bedrooms, laundry rooms and hallways.

The OLCL series is now available in 6", 9", 12", 14", 15", 19", 20" and 24" sizes and in round or square shapes. A model of energy efficiency, the 12" round or square, for example, consumes only 17 watts of power while providing light output equivalent to (2) 60 watt incandescent lamps! Factor in the savings that a multi-unit facility would realize through decreased energy consumption as well as savings on replacement bulbs and labor and the OLCL is an easy cost-effective choice to make! Installation is easy too. To install, simply remove the lens, connect the wires, and mount the unit. The unit dims utilizing TRIAC dimming systems and is rated for 50,000 life hours and is covered by a 5 year limited warranty.
